## AsiaFlux 2020 – Notice of Further Postponement

With the continuing COVID-19 pandemic still closing national borders and the restrictions on travel and conducting Meeting, Incentive, Conference and Exhibition (MICE) activities in Malaysia, the AsiaFlux 2020 Organising Committee has again regretfully decided to postpone the Conference until 2022.

The Organising Committee hopes that with the ongoing vaccination campaigns in the world and the acceptability of vaccine passports will open the national borders and allow us to hold the Conference with the safety and health of the participants in mind. You can keep yourselves updated through email and on our official website at <https://asiaflux2021.com>.

We are now ever-ready to host the Conference when the circumstances permit it and look forward to welcoming all delegates and friends to Sarawak next year to renew bonds and interchanges of scientific knowledge.

Stay safe and healthy! Thank you.

*With our best regards,*

Dr Lulie Melling  
Organizing Chairman
